

WATER PRICELIST 2025

Intelligent eco solutions

Roto Group is an international company specialized in the production of plastic products. The roots of the family-run business go back to 1949. ROTO employs more than 600 people in 8 factories located in different European countries.

Roto generated revenues of €100 million in 2024, selling products in 65 countries around the world.

Roto is European leading rotomoulding company, producing more than 4,000 different products. The company's development is ensured by continuous innovation, new technologies and materials that ROTO develops together with scientific institutes, universities and other companies.

The Roto-branded product groups are divided into four segments: products for agriculture, garden, sport and ecology. The use of composites and biodegradable and recycled polymers enables the production of the most complex products on the market.

EY award for the most successful family business in the world in 2016

Roto also manufactures a wide range of components products for various industries such as automotive, marine, construction and agricultural machinery, aquaculture and logistics. Added value innovative design, the use of intelligent polymers and composites, upgrade of products with accessories.

Oil traps for petrol stations have a settling tank 2x larger than those for car parks. They are made of a special material that is anti-static and ATEX certified 48-061-041/11.

Included in the price: automatic inlet shut-off with floats and measuring scale, sampling shaft and laminar coalescing filters.

Oil separator typ A have settler with volume NS×100
Oil separator typ B have settler with volume NS×200

Product prices do not include covers and extension.

Products marked with * are made to order and therefore have a longer delivery time. In the event that the annual inflation rate, as published by the Statistical Office of the Republic of Slovenia, exceeds 3%, the prices in this price list will be automatically and proportionally adjusted. The adjustment will be made by multiplying each price by an appropriate coefficient.

Price list is valid from 1. 4. 2025.
